

DANIEL HARRIS { DESIGN }

I am a Web Developer and Animator with a background in Graphic Design. As a creative practitioner I channel my experiences as a hard-of-hearing deaf person through my passion for motion graphics and web design. I also have knowledge of front-end programming languages and love building new websites and digital experiences.

Careers and Experience

Web Content Specialist

The Salvation Army Australia
January 2019 - Present

As Web Content Specialist my responsibilities include: To assist with the creation and publishing of web content within the Editorial, Publishing and Broadcasting department and providing relevant training and support to 300+ corps and their standalone websites. This involves creating websites on the national CMS platform which I developed in conjunction with the IT Team.

Web Developer and Animator

The Salvation Army Australia
September 2016 - Present

As Web Developer and Animator my responsibilities included: The ongoing development of websites utilizing front-end programming languages including HTML, CSS and Javascript. I created and developed websites based on project briefs as part of the Graphic Design Team. Furthermore, I also developed monthly newsletter templates in HTML format.

My Animator duties included designing and developing animations and other video media in conjunction with the Graphic Design Team.

Design Contractor for the RDA

Riding for the Disabled Association, Hong Kong
April 2016 – September 2016

As a contractor, I assisted in the production of promotional videos for the RDA. In my capacity as a designer, I produced various graphic elements and contributed towards the editing of the final videos. These videos were broadcast at the Hong Kong RDA Clubs and also on Hong Kong television.

An extended promotional video with deeper coverage on the equestrian paralympics was produced in October 2016.

Social Media Manager

Amore Men's Barber
August 2016 - September 2016

As Social Media Manager, I maintained the online presence of Amore Men's Barber Hairdressing Salon across a variety of social media platforms including Facebook and Instagram.

Animation Designer

Theater Production- 'HeySorryGottaGoBye'
June 2016 - September 2016

As the animation designer for the theatre production entitled "HeySorryGottaGoBye" I was responsible for creating the visual aesthetic and subsequent animations used in the theatrical production via the technique of rear-screen projection. "HeySorryGottaGoBye" debuted at 107 Projects and was produced as part of the Sydney Fringe Festival.

Mentor

Hear For You
April 2015 - June 2016

As a volunteer at Hear For You, I worked as a mentor for deaf/hard-of-hearing teenagers over the course of several workshops. I provided guidance and advice in a nurturing environment which empowers deaf people during their school years and beyond.

Graphic Design Contractor

WayAhead Mental Health Association NSW
December 2014 - September 2015

Worked as a web designer on the Mental Health Association's anxiety support website. Animation work was produced as content for the site.

Later commenced a rebranding of identity opportunity for the entire Mental Health Association and its umbrella organisation, Collective Purpose.

Rotoscope training course

Animal Logic
July 2015 - August 2015

Undertook and successfully completed Animal Logic's Rotoscope training course to gain skills in VFX and Compositing for film and television media.

Graphic Design Intern

M&C Saatchi
February 2015 - April 2015

Worked as a graphic designer at M&C Saatchi. Undertook various projects including: app visual layout design and amendments, Adobe Photoshop assisted photograph editing and visual design elements for advertisements.

Graphic Design Contractor

Australian National Maritime Museum
March 2014 - March 2015

Worked for a year as a graphic design intern and later as a paid contracted freelancer for the National Maritime Museum's upcoming exhibitions.

Graphic Design Intern

COSMOS Magazine
November 2012 - December 2012

Worked as a graphic designer during a month long internship for Cosmos Media, the company behind the scientific publication, Cosmos Magazine.
